A MASTERPIECE OF DESIGN.

OPEN UP. OPEN OUT. OPEN AIR.

THE AWARD-WINNING 30 FINSBURY SQUARE HAS ALREADY ENJOYED OVER 20 YEARS AT THE TOP OF ITS GAME. NOW, A MINDFUL RENOVATION OF THIS CITY ICON WILL ELEVATE BUSINESSES AND THEIR PEOPLE.

30 Finsbury Square is an altogether more open workspace, in both its design and location. Move up through the building, and its stone walls appear to pull apart, opening up to reveal the sky above.

TO NEW
WAYS OF WORKING

A L I G H T LEADING

For its next chapter, this iconic building is being refreshed and repurposed for the demands of the modern world, ready to reclaim its place as one of the City's most sought-after workspaces.

REIMAGINED

The building's lobby and reception is being opened up, with more windows and higher ceilings to create a welcoming arrival. An open to all coffee shop and outdoor seating will foster a sense of community and create a buzz throughout the day. A new, alternative building entrance offers an opportunity for a multi-floor tenant to create a private reception area.

ARRIVAL EXPERIENCE

OPEN AIR

Energising new outdoor spaces on the rooftop terrace are designed to improve everyday wellbeing and invite you to embrace the outdoors year-round. The expansive landscaped roof terrace offers the opportunity to work, meet, socialise and host events in the open air, while over-looking the large garden square below.

COLLABORATIVE SPACES

Large floorplates, uninterrupted by columns, create a working environment that flexes to your needs. On every floor you'll find open, adaptable spaces for improved collaboration, efficiency and wellbeing. The new 30 Finsbury Square is built for smarter working today, and ready for the future.

MEAG

&

MUNICH

RE

MEAG

MEAG strive to exceed clients' demanding goals while supporting sustainability-related goals. MEAG considers sustainability aspects of investments in all relevant asset classes. To this end, MEAG has committed to the Principles for Responsible Investment (PRI), which Munich Re was one of the first companies in Germany to sign in 2006. To further strengthen the Group's commitment, MEAG has also signed the PRI in 2021. MEAG's integration concept also takes account of environmental, social and governance (ESG) criteria in all investment decisions.

MUNICH RE

Since it was established in 1880, Munich Re has grown to become one of the world's leading providers of reinsurance, primary insurance and insurance-related risk solutions. Today, Munich Re is driving the transformation of the insurance industry, digitally and sustainably, offering its clients coverage for risks of every type and complexity, and covering areas as diverse as renewable energies and cyber security.

CREATING SUSTAINABLE WORKPLACES

30 Finsbury Square is a partnership between MEAG and Munich Re, two teams who share a commitment to sustainable growth, and are putting their promises into action across the globe.

WATERFRONT BUILDING, STOCKHOLM

Located in Stockholm’s new business district, the Waterfront Building utilises the local area’s natural resources to create a healthier, greener and more sustainable workplace.

All 11 floors are climate controlled using unique technology. Inside the building, 250 tonnes of ice is stored with water from Lake Klara Sjö to regulate the temperature in the buildings, acting as a heat source in the winter, and cooling when the temperature in the water is sufficiently low. Waterfront Building is one of the most energy-efficient office spaces in Stockholm, with LEED Gold certification and a world-class energy solution for minimised carbon dioxide emissions.

↑ Waterfront Building

LDN:W, LONDON

Ideally located in the historic heart of the City of London, LDN:W is one of the latest building refurbishments undertaken by MEAG.

In addition to sustainability credentials being awarded BREEAM excellent, Fitwel One Star and Wired Score Platinum, LDN:W also provides amazing accessibility to wider London, top class end of trip facilities and impressive views over the City from the large shared rooftop terrace.
